RE: Floodway Permitting

TO WHOM IT MAY CONCERN:

All property located in established **FLOODWAYS** are extremely restricted by FEMA and Montgomery County for developmental use. Encroachments are prohibited, including fill, new construction, substantial improvements and other developments unless certification by a professional registered engineer is provided demonstrating that encroachments shall not result in any increase in flood levels during occurrence of the base flood discharge. The construction of any structure for the purpose of habitation or the placement of any manufactured home is strictly prohibited.

If the requirements listed above are satisfied, all applicable flood hazard reduction provisions will apply.

For additional information, please contact the Flood Plain Office.

Sincerely,

Phil D. Jones, CFM
